Grace's order book, one sample page

From the bakery

GRACE'S BAKERY, KILIMANI · ORDER BOOK

Date	Customer	Item	How many	Batches	Ingredients
Tue 3 Nov	Café Kona	Bread rolls	300	12.5	25 kg flour, 1.9 kg sugar, 125 g salt
Tue 3 Nov	Mama Njeri	Mandazi	96	4	4 cups flour, 4 cups milk
Wed 4 Nov	St. Mary's School	Bread rolls	480	20	40 kg flour, 3 kg sugar, 200 g salt
Thu 5 Nov	Vachuo visit	Chapati	40	5	15 cups flour

Grace's rule, written on the inside cover: "Batches first. Multiply every ingredient by the same number. Check the salt twice."

Questions to think about

1. One batch of rolls makes 24. How did Grace get 12.5 batches for Café Kona?

2. Check the school order: is 40 kg of flour right if one batch uses 2 kg?

3. Why might salt be "the worst one to get wrong"?

This sample page is written for Vachuo's lesson. Grace shares her real notebook during bakery visits.
